Instant Pot Baked Potatoes

Large russets in the pressure cooker, no foil · From Rick's X post

Illustration

Serves 2
Pressure 25–30 min
Release 10 min natural

INGREDIENTS

- 2 large russet potatoes
- 1–1½ cups cold water
- Trivet

INSTRUCTIONS

1. Scrub the potatoes well and pierce each one 5–8 times with a fork. Do not wrap in foil.
2. Pour 1–1½ cups cold water into the Instant Pot and set the trivet inside.
3. Set the potatoes on the trivet, not touching the water.
4. Lock the lid and set the valve to Sealing. Cook on High Pressure 25 min for large potatoes (30 min for extra-large).
5. Let the pressure release naturally for 10 minutes, then quick-release the rest.
6. Check doneness: a fork should slide in easily. If not, cook 3–5 more minutes.
7. Optional crispy skin: rub with a little oil and salt and broil or air-fry 5 min.

Steps 3–7 approved by Rick.

Heart-healthy tip: Top with plain Greek yogurt instead of sour cream, plus chives or salsa. The potato stays a lean, high-fiber side.
