Chill 2 hrs
Bake 350°F, 12 min

INGREDIENTS

- 1 (8 ounce) cream cheese, softened
- 1 stick butter, softened
- 1 egg
- 1 teaspoon vanilla extract
- 1 (18 ounce) box moist chocolate cake mix
- Confectioners sugar for dusting

STEPS

1. In a large bowl with an electric mixer, cream the cream cheese and butter until smooth. Beat in the egg, then the vanilla extract, then the cake mix.
2. Cover and refrigerate for 2 hrs to firm up so that you can roll the batter into balls.
3. Preheat oven to 350.
4. Roll the chilled batter into tablespoon sized balls and then roll them in confectioners sugar. Place on an ungreased cookie sheet, 2 inches apart.
5. Bake 12 mins. The cookies will remain soft and gooey.
6. Cool completely and sprinkle with more confectioners sugar.

The source mentions preheating to 350 at the end. It's moved here to before baking. Source didn't list how many it makes.

> **Heart-healthy tip:** These are rich with butter and cream cheese. Make them small and freeze some so you aren't tempted by the whole batch.
